SAP Services

Data-Core Systems

technology | consulting | outsourcing

Data-Core Systems' SAP Consulting Services help our clients "run SAP like a factory," improve return on investment, reduce total cost of ownership and drive constant innovation. Our Consultants are SAP-certified in multiple areas and help clients realize the full potential of SAP.

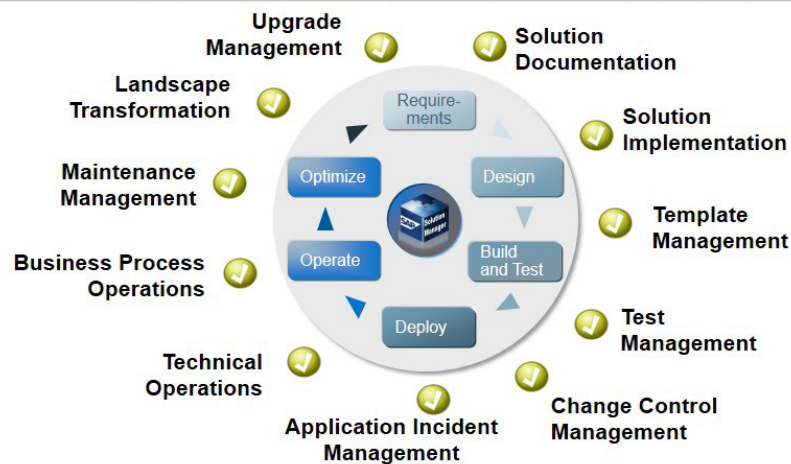

SUPPLEMENTAL STAFFING

More and more organizations are taking ownership of their SAP systems and managing their own projects. However, these organizations often need additional SAP staff for their projects and require more than what traditional SAP consulting and staffing firms can offer.

Application Lifecycle Management Processes

An Approach in Six Phases of ITIL Application Management

Our SAP Consulting Services supports best practices in 11 core Application Lifecycle Management process areas, providing guidance on how to manage SAP and non-SAP applications in the most efficient and structured way.

Data-Core Systems' SAP Consulting Services include comprehensive solutions to staff and deliver your projects across the entire SAP landscape. Whether you need a single SAP resource who can complete a small project, niche SAP experts to fill in gaps on your team or an entire SAP project team, our SAP Consulting Services can meet your staffing needs.

As your SAP Partner, Data-Core will work to ensure successful delivery throughout the project lifecycle. Beyond SAP Consultants, we offer additional services that can add value to your project.

Scope

Data-Core's SAP Consulting Services provide you with Platinum-level, U.S.-based SAP resources across the entire functional and technical SAP landscape in the quantity and skill sets you need.

SAP Staffing Models

Onsite: Data-Core provides any needed SAP consultants to work directly in your facility.

Offsite: Remote SAP Resources are available to you as you need them.

On-Demand: Gain access to resources for unplanned needs at a moment's notice.

We can customize any combination of onsite and offsite delivery to fit your specific needs.

SAP Tools + Templates + Resources

Data-Core's official relationship with SAP as a Certified SAP Services Partner gives us access to their best resources. Our clients also benefit from the tools and templates we have developed in our 18 years of SAP experience.

SAP Project Management

For organizations that need additional staff and assistance in managing a project, our SAP Consulting Services include two levels of SAP Project Management with Project Teams 360. The best choice for you depends on the level of autonomy you desire.

Shadow Management: You manage your own project while allowing Data-Core Consultants to provide shadow oversight to ensure your project stays on-schedule and on-budget.

Turn-Key Project Management: SAP Consulting Services provides complete SAP Project Management and oversight. Our SAP Project Managers typically have over 10 years of SAP Project Management experience and are adept in managing timelines and budgets.

Quality Assurance (QA)

Data-Core provides SAP project oversight and governance to add additional control over your projects through each stage of the product lifecycle.

PROJECT IMPLEMENTATION

When your business requires a new solution, you want it deployed quickly, affordably and reliably. A service provider with a sharp focus on rapidly meeting your business needs can help realize the software's potential. Outcome-based services from SAP delivers value throughout the implementation while dramatically reducing cost, risk and time to value.

Seamless Implementations

At Data-Core, our Consultants' experience implementing SAP core and emerging technology modules coupled with our holistic system approach allows for the seamless integration of new functionality into your environment with immediate benefits for your users and business.

Efficient, Risk-Free Upgrades

SAP's aggressive upgrade path pushes SAP customers to undergo periodic migrations to newer SAP releases. When you do need to upgrade, our Consultants' keen understanding of the functional enhancements and technical requirements of each new SAP release, as well as our long history of successful SAP projects, can lower your risk through a systematic approach.

On-time, On-budget Projects

Pressures on your business and budget drive the need for rapid, accurate delivery of your SAP projects. Data-Core is committed to completing your SAP implementations and upgrades on schedule and within budget. With our focus on long-term relationships, structured methodologies and tools and templates we deliver high quality results that exceed customer expectations.

High Velocity Component Upgrades

In certain SAP architecture designs, upgrade plans will structure upgrades for individual components separately from your SAP Central Component upgrade. Our expertise in facilitating individual module upgrades quickly and effectively has aided our customers in increasing their return on investment, lowering their total project costs and securing their competitive advantage with an excellent end product in situations where time and resources are at a premium.
